

# SET-SEN-PROG-01

## Infra Red Programmer

**set square**  
energy saving controls

### Key Features

- » Remote programmer for SensorLite.
- » Onboard non volatile memory.
- » Stores three configurations.
- » One touch commissioning.
- » Simple menu driven programming.
- » Mode Lighting products are guaranteed for two years.

The SET-SEN-PROG-01 is a handheld infra-red programmer with an onboard LCD screen for programming of the SensorLite range of presence detectors.

Using a simple menu system the SET-SEN-PROG-01 can configure the different functions available in the Sensorlite range. Once the first sensor has been programmed correctly the programmer can store these parameters in its non-volatile memory, the program can then be easily downloaded to other sensors in the project using its one touch operation. Up to three of these individual programs can be stored in the programmer enabling rapid commissioning of large sites.

## Technical Data

Inputs	
Voltage Supply	» 9V DC Battery
Battery	» PP3
Mechanical	
Dimensions	» L= 90mm x W= 61mm x D= 22mm
Material	» Flame retardant ABS
Weight	» 15g
Operating temperature	» 0-40°C

## Product Codes

Product Codes	Description
SET-SEN-PROG-01	» Infra red programming handset

## Works With

Product Codes	Description
SET-SEN-DIM	» All SensorLite detectors
