# BESPOKE CONTROL

custom plate / button engraving for configurable control

Any button can perform any task... decide on the function or scene you wish to create, then choose a symbol, word or even design your own symbol.

23

Client selectable plate and button engraving to suit any requirement.

Configurable control:- Local and global scene selection

- Toggle on/off control
- Impulse on/off/dim control
- On/up, off/down, up/down
- Selectable button LED colours
- BMS and AV command triggers

# DIGITAL ROTARY

traditional control... for the modern world

Conventional rotary “dimmer” for dim up/down control.

Single or multi-channel operation.

Integrates with scene setting control.

Multi-position flexibility.

Standard and Custom Plates available.

# STANDARD SWITCHES

27 Mode Lighting also offer a range of interfaces to work with standard electrical switches. Available in modern, classic and antique finishes to suit any style of project.

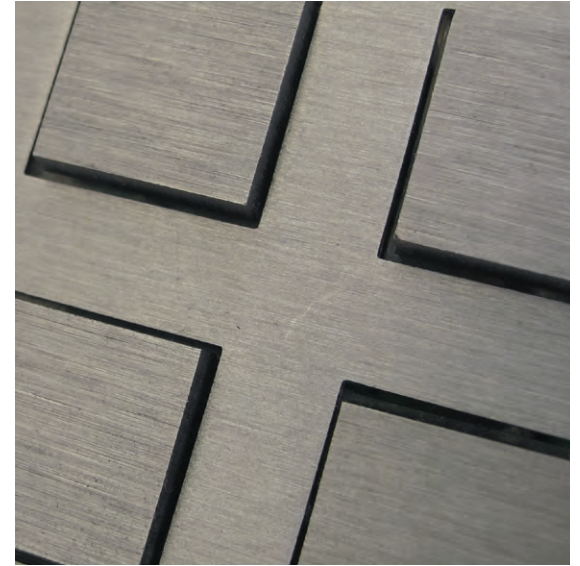

Working closely with some of the highest quality plate manufacturers, our systems integrate with any style of control your project requires.

Rocker

Bell Push / Toggle

Push Button

- Integration with standard electrical switches
- Flexible control
- Custom interfacing

# TOUCH SCREEN

elegant total system control at a touch

Easy to use Touch Screen.

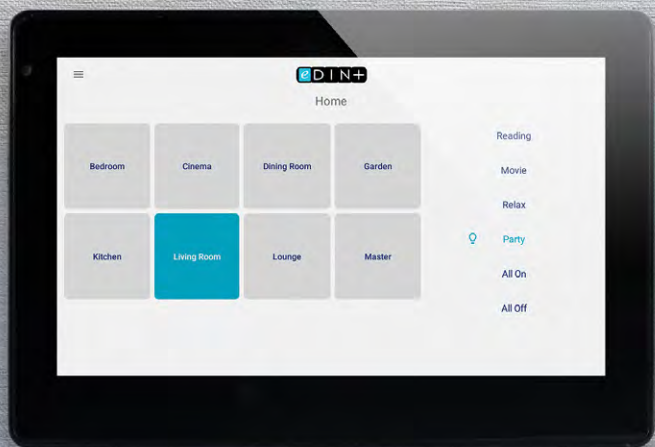

7" colour display

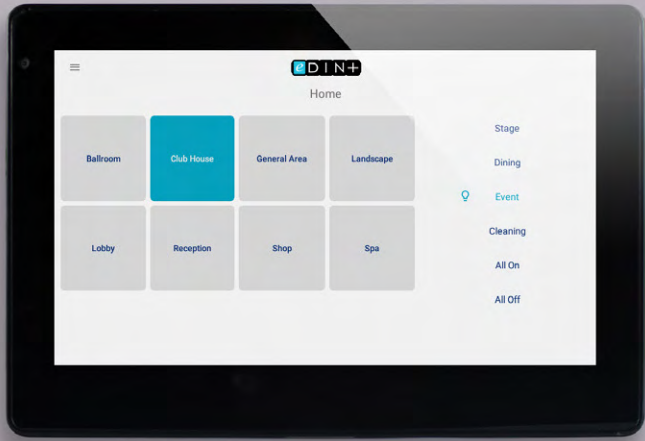

Optional black or white finishes.

Supplied with flush mount back box.

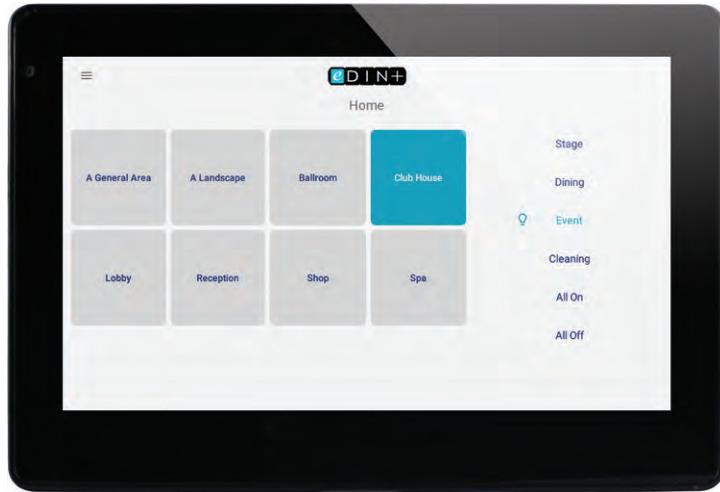

Pre-installed eDIN+ App Control software.

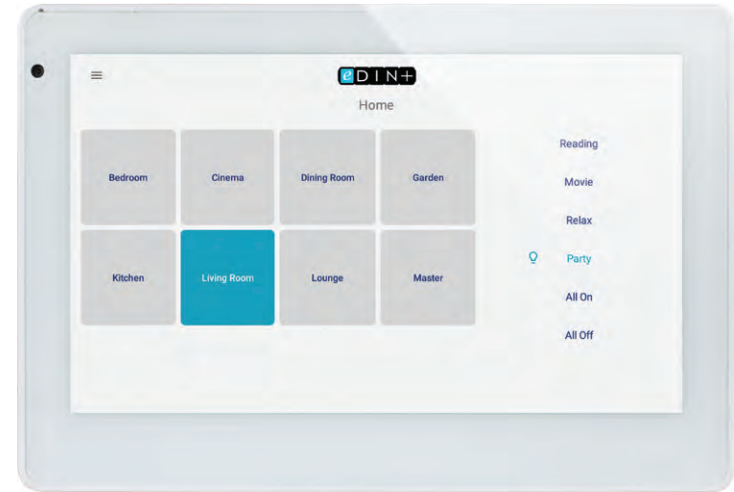

BLACK TOUCH SCREEN  
(BLK)

WHITE TOUCH SCREEN  
(WHI)

- Easily select local and global scenes
- Save popular scenes to favourites for faster control of your lighting

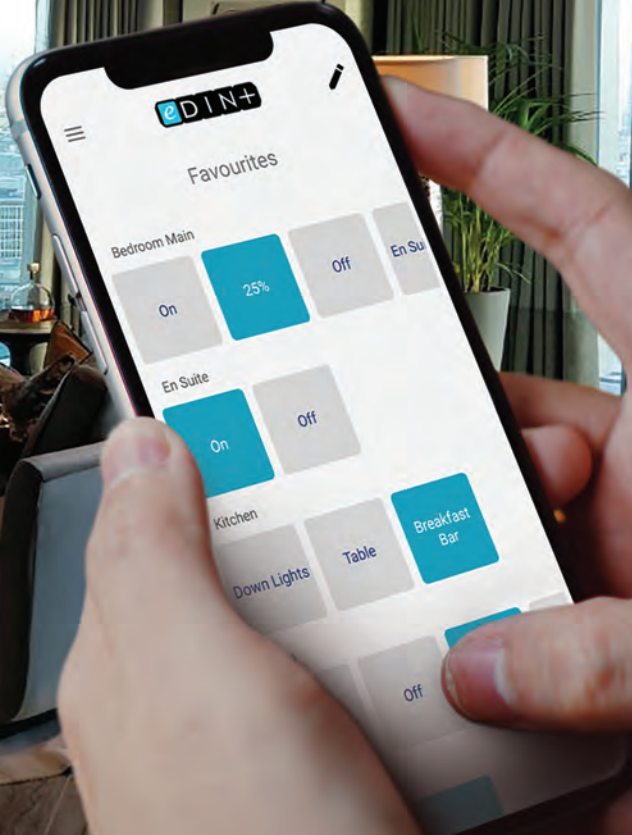

# APP CONTROL

simple and stylish total system control

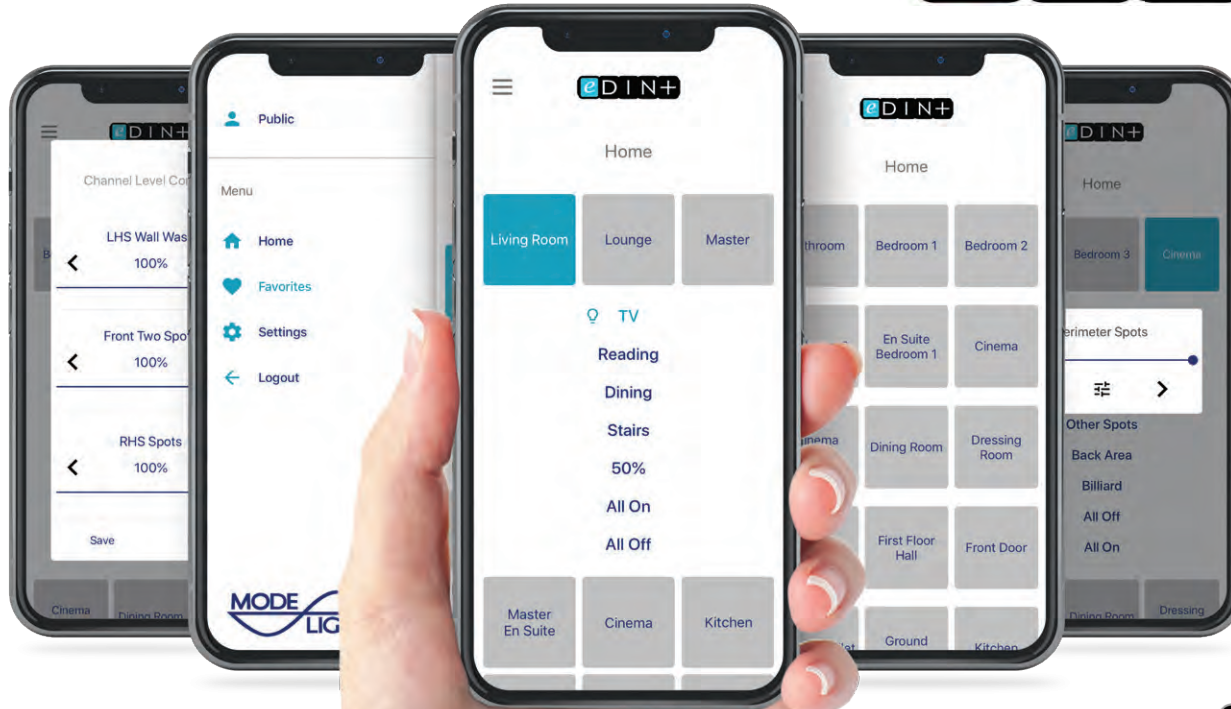

33 Networked systems can be controlled by a simple App, allowing room by room or global scene selection and adjustment, putting your project in your control.

The App lets you conveniently control your smart home or commercial project with ease. Whatever command you want to perform the Mode Lighting App makes it simple and quick.

- Convenient complete control
- Quick setup
- Intelligent intuitive features
- Available on Apple® and Android™ devices
