

# SET-SEN-DIM-LM-P

## Presence Sensor

The SET-SEN-DIM-LM-P is a recessed mounted presence sensor for installation in ceiling tiles or plasterboard type ceilings. The SET-SEN-DIM-LM-P is a true multi-sensor, mains powered, self-contained, occupancy and light level sensor which has been designed to automatically switch lighting on when movement from body heat has been detected. It will automatically switch it off again once movement has ceased following a preset adjustable time delay.

The SET-SEN-DIM-LM-P is capable of providing a DALI (Broadcast only) or 1-10V analogue output. It provides automatic daylight linking dimming based on natural daylight ingress.
